Step 1: (For picture frame only) remove the glass and backing from the frame. If your base is not a frame, continue to step 2.

Step 2: Paint your wooden base using the White or Black Acrylic Paints. Let the paint completely dry (should take a few minutes).

Step 3: Lay out your tiles design on the base. When you're happy with your design, glue the mosaic tiles to the base. To glue them, squeeze a little dot on the back of the tiles, then press it down onto the base until the glue oozes out. This will help keep your tiles in place. Let dry for about 24 hours.

Step 4: (For picture frame only) Insert your glass and backing into the frame. If your base is not a frame, continue to step 5.

Step 5: Enjoy your mosaic piece!
